

GRAPHIC DESIGNER

Hey there, my name is **TJ ATKINSON**

Design is the natural career choice for me, I'm fascinated by it and want nothing more than to make a living doing something I love. I have such a big passion for design that you could probably call it a crush. My biggest strengths include the ability to conceptualize ideas, problem solve, spot a discrepancy a mile away, strong time management skills and communication skills. I am a very quick learner with a thirst to learn as much as I possibly can. Aside from art and design my interests include advancements in technology, conspiracy theories and watching anime—my favourite being Fairytail and Onepiece.
